Percentage - 82.85%

EXPERIENCE

Intern at acadmor , Remote — *Frontend Developer*

May 2023 - June 2023 , Certificate

Developed and integrated multiple APIs within a React-based project to dynamically retrieve, manipulate, and display data. Implemented advanced search and filter features to enhance user experience and data accessibility.

PROJECTS

A minimal chat application —

Techstack : React, Redux, Tailwind, Express, SoketIo, MongoDb.

Built a full-stack real-time chat application using React for the frontend and Express for the backend. Integrated Redux for state management to handle user sessions and real-time message updates efficiently.
